

Hi! My name is Pedro Bento and I'm a freelancer graphic designer & illustrator living between Lisboa and the inspiring depths of Portugal, based in **Sertã**. This is where I proudly set up my studio. Working remotely since 2016.

I see myself as a versatile designer. Jumping between the big city and a small village. Jumping between projects and areas too. Focused mostly on the following: **illustration, branding, editorial, digital, motion design and matte painting.**

Thanks for reaching me!
